Summary

Enthusiastic and detail-oriented Software Developer fresher with a strong foundation in Java, SQL, HTML, CSS, and JavaScript. Skilled in both backend development (Java, SQL) and frontend development (HTML, CSS, JS), with a passion for building dynamic web applications and writing clean, efficient code. Eager to contribute to innovative projects and grow as a versatile developer. Proficient in problem-solving, teamwork, and continuous learning, with hands-on experience through personal projects and a solid understanding of software development principles. Actively expanding knowledge in frameworks like Spring Boot and tools like Git to enhance technical expertise. Ready to bring creativity, adaptability, and a strong work ethic to a dynamic development team.

Education

Sreenivasa Institute of Technology and Management Studies

Dec 2022 - May 2025

B. Tech in Computer Science and Engineering

• GPA: 7.0

Dr YC James Yen Government Polytechnic, Kuppam

June 2017 - May 2020

Electrical and Electronics Engineering

• Percentage: 67.72%

Mangal Vidhalayam H S, Petamitta, Chittoor District

March 2017

S.S.C

o CGPA: 8.0

Projects

• Skin Disease Detection using Image processing and MobileNet

- Developed a machine learning-based system to automatically detect and classify skin diseases from images
- Key Features:
 - * Image Acquisition & Preprocessing: Skin images are captured or uploaded, then processed (resized, normalized, augmented)
 - * Training & Classification: System trained on labeled dataset of various skin conditions
- Technologies Used: Python, Flask Framework, HTML, CSS, JavaScript
- Responsibilities:
 - * Built and trained CNN models for accurate image recognition
 - * Designed server-side scripts for seamless integration
 - * Developed user-friendly interface using Flask, HTML, CSS, and JavaScript
- Outcome: Model demonstrated strong precision (90%), recall (91%), and F1-score (90.5%)

Internships

Cloud Computing Intern

CODTECH

- Assisted in setting up and managing cloud infrastructure
- Monitored cloud environments and optimized performance
- o Containerized a website using Docker for consistent environments

Fullstack Web Development

TAP Internship

Mastered Core Java, Advanced Java (JDBC, J2EE, Servlets), Spring, Hibernate, MySQL, and Frontend Development. Gained hands-on experience in OOP, Collections, Multithreading, Exception Handling, and Java 8 features (Lambda Expressions, Stream API). Applied skills in multiple projects, including a capstone Online Food Delivery application.

Skills

- \circ Programming Languages:
 - Java OOPs, Collections, Interface, Operators, Methods, Arrays, Strings, Exception Handling
 - Python
- $\circ\,$ Database: SQL, MySQL, Oracle
- $\circ\,$ Web Technologies: HTML, CSS, JavaScript, Bootstrap

Interests

- \circ Cricket
- Traveling
- $\circ\,$ Food Lover
- o Browsing Internet
- o Video Editing
- \circ Photoshop
